4. Under Custom Preview, type the word you want to use and click on Submit. This will

2 of 7

show you the word in all the font choices.

5. Select a font the has a lot of black. Your picture will group with the black in the font. I chose Ghetto Marquee. Be sure to pick a font that is **Free for Personal Use**. That's listed on the right.

 Depending on the web browser you use, a panel will either pop up automatically, or you may have to navigate to the **Downloads** folder. Go to **Start/My Documents/Downloads** to find your zipped file.

8. Double-click the zipped file to open it.

	Select a folder to extract files to. Files will be extracted to this girectory: [tudent/My:Documents\Downloads\ghettomarques] Browse Password Extracting (Back Next> Cancel
Extraction Wizard	
Extraction Comple Files have been :	te successfully extracted from the ZIP archive.

12. Click Finish.

- 13. This panel will pop up.
- 14. To install the font, go to Start/Control Panel.

15. When this screen appears, choose Switch to Classic View on the left.

16. Double-click the Fonts folder to open it.

17. Drag and drop your font file into the Fonts folder.

18. Your font should install and is ready to use when you open Photoshop or other applications. If this doesn't work, try again. Some font's just won't install, so you may have to try another font.
